EDUCATION

RD Engineering College	Delhi NCR, Ghaziabad
Bachelor of Technology in Computer Science and Engineering (AIML) with 8.61 GPA	*Sep 2020 – July 2024*
Shiksha International School	Modi Nagar
12th with 82.41%	*Apr 2019 – Apr 2020*
Shiksha International School	Modi Nagar
10th with 84.6%	*Apr 2017 – Apr 2018*

PROJECTS

[WealthSphere](#) | *Angular, MongoDB, Node* ⎋   May 2024 – June 2024
- Developed a portfolio management system for tracking stocks, cryptocurrency, fixed deposits, cash, and foreign currencies.
- Integrated real-time financial data fetching and live Stock updates through external APIs.
- Used PrimeNG and ng2-charts to visualize interactive tables, charts, and financial reports.
- Built a dynamic news-fetching component that customizes content based on investment categories.

[Netflix Clone](#) | *React, MongoDB, Node* ⎋   Apr 2024 – Apr 2024
- Developed a Netflix clone application with a responsive UI for a seamless streaming experience.
- Integrated Firebase for user authentication, including sign-up, login, and session management.
- Used React for dynamic rendering of movie lists, genres, and user-specific recommendations.
- Integrated a search feature to filter movies and shows based on genres, titles, and ratings.

[News Application](#) | *Android, Java* ⎋   Oct 2023 – Oct 2023
- Developed an Android news application for real-time news updates and articles from various sources.
- Integrated a RESTful API to fetch live news data and display it dynamically within the app.
- Implemented RecyclerView to display a list of news articles with images, titles, and descriptions.
- Added a search functionality to allow users to find news articles based on keywords or categories.

EXPERIENCE

NovoInvent Software Pvt. Ltd | Software Engineer   Oct 2023 – Present
Hybrid
- Designed and developed key modules like **loans**, **asset management**, **margin**, and **pledges**, ensuring seamless integration and functionality across the application.
- Took ownership of the development lifecycle for these modules, from requirement gathering to deployment.
- Resolved complex challenges related to data handling and module interactions, improving system performance and user experience.
- Leveraged modern tools and frameworks like **Angular** and **TypeScript** to design and build robust, scalable, and maintainable solutions for critical.

NovoInvent Software Pvt. Ltd | Software Engineer Intern   Mar 2023 – Sep 2023
Hybrid
- Completed a one-month training program focused on learning core development and team collaboration skills.
- Actively participated in the full software development lifecycle, including requirement analysis, design, development, testing, and deployment.
- Supported the team in understanding and fulfilling client requirements, ensuring timely delivery.

CERTIFICATIONS

- AWS Academy Graduate - AWS Academy Cloud Architecting ⎋   Aug 2023
- AWS Academy Graduate - AWS Academy Cloud Foundations. ⎋   Aug 2023

EXTRACURRICULAR

- Secured under 60 Rank in Inter college Java quiz competition.
- Achieved 2nd place in Innotech Techfest at RDEC by developing the RDEC Quiz Application.
- Procured 2nd position in the open mic at the school level in Shiksha International School.

SKILLS

Languages: HTML, CSS, TypeScript, Java, C, SQL
Technologies: Frontend Development, Backend Development, Android Development
Frameworks: Angular, React, Android
Developer Tools: VS Code, Figma, Android Studio, Git, MongoDB
Deployment Tools: Microsoft Azure, Docker, Netlify
